

STUDENT CHAPTER MOMENTUM AWARD

Purpose

ITE established this award in 2020 to recognize a student chapter that has experienced the greatest momentum (or most improvement) in the past year.

Eligibility

To qualify for the award, a student chapter must submit a narrative that is no longer than two pages with one additional page of photographs (three pages total), and can address (but is not limited to) activity in any of the following areas:

- Chapter Administration
- Application of Technical Knowledge
- Networking Events
- K–12 STEM Outreach
- New Member Recruitment
- Diversity and Inclusion
- Training/Professional Development
- Field Trips/Technical Tours
- Service Projects
- Leadership Development.

The narrative should cover specific improvements and/or special efforts that chapter leadership has implemented and describe the positive change for the Chapter and the membership. Examples could include, but are not limited to, how you've increased attendance at meetings, broadened participation outside of traditional engineering students, or helped your members develop leadership and professional skills. This narrative should illustrate how your leadership is applying good ideas to bring your Chapter success.

Submission/Selection Process

This should be submitted as a PDF to the [District Award Coordinator](#) by **March 1**. Each District will then submit one winning Chapter for entry in the international competition via <https://ite-awards.secure-platform.com/a/> no later than **April 1**. These deadlines allow judging to be complete in time for the award winner to be announced at the ITE Annual Meeting and Exhibition.

Award

The Student Chapter winning the award will be recognized at the ITE Annual Meeting and Exposition Awards Luncheon and in *ITE Journal*. In addition, a travel reimbursement up to \$1,000 to attend the meeting as well as one free Annual Meeting Registration and a ticket to the Awards Luncheon will be given.
