

COLLEGE TO CAREER:  
HOW TO STAY OR BECOME  
INVOLVED IN ITE

ITE is focused on **transportation**: We are a growing group of transportation professionals who are looking to advance our careers, expand our networks, and be a part of the future of transportation. **ITE is made up of planners, educators, engineers, researchers, and other professionals** who want to make our transportation systems better.

This pamphlet is meant to help you understand some of the ways you can be a part of the ITE community as a young professional. **There are a lot of ways to be a part of ITE from the local to international level both in-person and online.** If you want to hit the ground running try out our immediate actions. Want to dive deeper? Read our medium involvement section. Going for a slow burn or want to get the biggest bang for your event, check out the long-term involvement.

Want a second opinion? Read [International ITE's young professional pamphlet.](#)

We hope to see you soon,
